

**EVALUATION OF THE STS COURSES  
OF THE WINTER SEMESTER OF THE ACADEMIC YEAR  
2024-2025**

We inform the students of the Interdepartmental Graduate Program STS that the online evaluation of the courses is available. You are invited to fill in an Anonymous Questionnaire. The only information recorded is whether the specific ID has participated in the survey or not. Anonymity is ensured in each case as the login details are not stored together with the responses submitted and thus there can be no correlation of participants with submitted responses. When you participate in the survey, no information that identifies you is recorded, apart from the information you may give in response to a question. The system guarantees the anonymity of the participants by not recording anything that could correlate the access data (digital account) with the answers that are given. The only information that will be recorded is the digital account (login) that was used, in order to ensure the uniqueness of the participation.

The deadline for submitting the evaluation is from 16/12/2024 to 27/01/2025. Due to the fact that the questionnaire is in Greek, we also send you a translation of it in English.
